

THE REFLECTOR

THE REFLECTOR-1957

BUCKEYE HIGH SCHOOL
Medina, Ohio

Foreword

The name, THE REFLECTOR, was chosen because we thought it was symbolic of the purpose of our yearbook. Our purpose is to reflect the lives of the people, our school, and the activities in which they participate. This yearbook is to serve as a memory book, and as a history of the school year 1956-1957. The theme, which is an outgrowth of the purpose, is to portray the personalities in their activities. We hope that this annual will characterize this school year and our school.

We want to thank everyone who had any part in helping to make THE REFLECTOR a success; especially Mr. Aho who was always ready and willing with helpful advice.

Assembly by
Student Council.

Buckeye High School organized a student council in 1955. A constitution was constructed by the council and ratified by the student body. Two members per class are elected to the council by the class they represent. Officers of the student council are elected by the members. The purpose of the council is to collaborate with the administration on student problems and administrative rules. Also, the council helps to promote better relations between our high school and other neighboring schools. However, our greatest interest lies in representing the student body to the school administration; and thus strive for better cooperation and better relationship between students and teachers.

A black and white photograph of a group of approximately 15 people, likely a family or a group of friends, posing outdoors. The group is arranged in two rows, with some individuals standing and others sitting or kneeling in the front. The image is heavily degraded with significant noise and artifacts.

A black and white photograph of a large group of young men, likely a sports team, posing in three rows. The front row is kneeling, the middle row is seated, and the back row is standing. They are all wearing light-colored shirts and dark trousers. The photo is slightly faded and has a white border.
